CREDITS AND MONEY.

Mr. Dewey's Paper Before Illinois Bankers' Association.

Springfield, Oct. 16.—The feature of Thursday's session of the Bankers' association of the state of Illinois was a paper on "Bank Credits," by D. B. Dewey, vice-president of the Bankers' National bank of Chicago. The session was opened with prayer by Rev. Euclid B. Rogers of the Central Baptist church of this city.

The committee of nominations reported and the following were elected officers of the association for the ensuing year:

President—Frank Elliott, Jacksonville.

Vice-Presidents—W. T. Fenton, Chicago, and twenty others.

The new president was introduced to the convention and spoke briefly. Some complimentary resolutions were adopted and the convention adjourned sine die.

Denver, Col., Oct. 16.—According to the latest advices from Meeker, Col., which is ninety miles from the nearest telegraph office, the three men who were killed there after robbing the bank have not been identified. The one who lived two hours after being shot gave names which are believed to be fictitious. It is believed one of the robbers is Thomas McCarthy, who aided in robbing banks at Telluride and Delta.

PASSES A NINE-HOUR LAW.

Important Session of the International Typographical Union.

Colorado Springs, Colo., Oct. 16.—Thursday's session of the International Typographical union was the most important that has been held since the convention opened four days ago. The following officers were chosen for the ensuing term: President, W. P. Prescott of Toronto, Ont., re-elected; secretary and treasurer, John W. Bramwood of Denver; first vice president, Theodore Perry of Nashville, Tenn.; second vice president, George W. Williams of Boston; third vice president, Hugo Miller of Indianapolis, re-elected. The most important business transacted by the convention at to-day's session was the passing of the nine hour labor law. An effort to pass an eight hour law was defeated. The nine hour law has now to be voted on by every typographical union in the country before its final adoption. Syracuse was chosen as the place of meeting in 1898.

BANCROFT AT SMYRNA.

Commander Belknap Reports by Cable—No Likelihood of War.

Washington, Oct. 16.—The Bancroft has arrived at Smyrna, and Commander Belknap has reported his arrival by cable to the navy department. It is not known when the Bancroft will leave Smyrna on her trip through the Dardanelles, but it is expected that the trip will be made within the next fortnight. Nothing has been advanced from the state department or the navy department which adds to the present fund of information upon this subject. There is no danger of war; no likelihood of there being anything approaching force or its display. The Bancroft, while not exactly upon an errand of peace and good will, is to proceed peaceably, and there will be nothing but peaceful results.

Will Be Called "Democrats."

Lincoln, Neb., Oct. 16.—Nominees of the gold democratic state convention will go on the official ballot as democrats. This was the intimation made by Secretary of State Piper, before whom arguments have been made continuously for two days, the fusionists protesting against the right of the old-line members of the party appearing on the ballot at all, and especially against the use of the designating word "democrat." The matter was taken under advisement and the formal decision will be rendered Saturday. Both sides have announced their determination to carry the case to the supreme court in the event of an adverse decision.

Detroit, Mich., Oct. 16.—Don M. Dickenson has received \$102,000 to be spent for Palmer and Buckner in Michigan, Indiana and Ohio, making \$34,000 to each of the three states. As the democrats have never spent over \$70,000 in Michigan, in any presidential election, this gives them nearly that amount for two weeks alone.

They filled the broad North Market street a half-mile from Public square to Louis

avenue, at the McKinley home. They crowded over the fences from the streets and the sidewalks, onto the doorways and lawns of other homes, as far as the eye could reach. They came from the forge and factory and mill in working clothes.

It was an unorganized delegation. The factories now in operation passed the word around that those of their employes who wanted to call on Maj. McKinley could do so in the afternoon after 4 o'clock. There were no uniforms and but few attempts at badges. Everything was hurriedly improvised. No meeting has affected Maj. McKinley so much as this tribute of the workmen of his home.

The first train-load of callers arrived in a special train of six cars over the Cleveland, Canton & Southern railroad at 12:30 o'clock. The party was composed of farmers and business men from northern Erie county, Pennsylvania, and were in charge of W. J. Sell. This delegation was held for ten or fifteen minutes, till a second train of eight coaches, filled with business men, farmers and other citizens of Corry, Pa., arrived, and the two parties were combined and marched to the McKinley home, where one address sufficed for both. Maj. McKinley responded.

A delegation from western New York, consisting of professional men of the cities and farmers, dairymen and grape growers from the surrounding country arrived in the afternoon and paid their respects to the republican candidate. The delegation, which filled eight coaches, left Dunkirk, N. Y., last night. The introductory address was made by Congressman W. B. Hooker, of Fredonia.

Palmer Talks in the South.

Ferguson, commander of Alabama division of the United Confederate Veterans, presided and introduced the speakers. Gen. Palmer denied the statement that he voted for the force bill. He also exploded the charge that he denounced the confederate flag as the rag of treason. He then launched into a discussion of the issues of the campaign.

DARING ROBBERY AT GALENA.

Saloon Looted After Fatally Wounding One Man—Bandits Surrounded.

Galena, Ill., Oct. 16.—A daring robbery was perpetrated Thursday by two men, strangers, who entered the saloon of Christopher Bauer, at the corner of Main and Franklin streets, and robbed the place, after fatally wounding Joseph Bauer, father of the proprietor. One of the robbers covered old man Bauer, while the other called to Herman Dampke, the only other man in the saloon, to throw up his hands. Dampke showed resistance, and the bandit fired at him twice, but both shots missed. In the meantime the second robber had struck old man Bauer to the floor with the butt of his revolver. As the old man attempted to rise the other approached and fired, the bullet lodging in his breast just over the heart. Several other shots were fired and the attention of passers-by was attracted. The robbers looted the till and then fled by a back door, pursued by an excited crowd. Several other shots were fired right and left in their flight, shooting even at little children playing in the street. A few miles from town they deserted the vehicle and sought refuge in the thick woods. Sheriff Parker systematized the pursuit, and the men are so thoroughly surrounded that their capture is sure. Fully 300 men are in the chase, and there are rumors of lynching.

Ex-Banker Gets Into Jail.

Philadelphia, Pa., Oct. 16.—Adolphus Cole, who, in 1894, operated a bank in New York, was arrested here Thursday on the charge of being a fugitive from justice. Cole's bank, which was patronized by Italians and the poorer class, failed in 1894. Afterward Cole disappeared, and it was found that he had got away with the funds of the bank to the amount of between \$100,000 and \$200,000. He was seen at Broad street station by two Italians who had been depositors, and who informed the detective department. He was committed to jail.

Withdraw Gold Too Hard.

New York, Oct. 16.—There was some surprise in financial circles Thursday when the announcement was made that a stock-brokerage firm had withdrawn \$600,000 in gold from the sub-treasury. The general inference was that the withdrawal was for hoarding purposes. The failure of the Bank of England to raise its discount rate was a surprise in this city, and had the effect of raising expectations of further large engagements of gold for import.

Want to Answer Dr. Dewey.

Ann Arbor, Mich., Oct. 16.—The racket over the lecture of Chauncey M. Dewey in university hall Saturday evening continues. A CONFESSION MADE BY MR. RAMBUSCH

JUNEAU MAN ADMITS HIS PEC- ULATIONS.

His Defalcation Will Probably Aggregate Two Hundred Thousand Dollars—Writes a Letter From Philadelphia—Forest Fires Raging—Stevenson at Milwaukee.

Juneau, W. S., Oct. 16.—All doubt as to the character of W. T. Rambusch whose disappearance last week led to an investigation which disclosed business transactions that are, to say the least, questionable, were removed Thursday when a letter was received from him making a confession which fully substantiates the apprehensions of those who feared the worst. The most startling information was the assertion that Mr. Rambusch contem-plate taking his own life. In fact, it is believed that he expected to be dead before the letter reached Juneau.

A duplicate set of keys to all the rooms and vaults in the courthouse was found among Rambusch's effects and an examination has revealed the fact that official records have been freely tampered with. Startling reports are now being made in regard to the burning of the Lodge County courthouse and destruction of all records in 1877. The fire was laid at the door of a defaulting county treasurer, but the then district attorney had reason to believe that Rambusch had set fire to the building, and he employed Pinkerton detectives to work up the matter. They found evidence tending to prove that Rambusch was the guilty man, but it was not sufficient to make a case and the matter was dropped.

It is impossible to tell just how much Rambusch's stealings amount to. At present they are estimated at \$200,000, but additional cases are constantly being found, and the figures will no doubt be greatly swelled by later developments.

The last two days have been anxious ones for the officers of the Citizens' bank, of which Mr. Rambusch was president, but the danger of a run is now over. It was fully expected that there would be a run Wednesday, but only a single certificate was withdrawn. Everything proved that the bank was not hurt, and the people did not lose confidence in it.

Forest Fires in Michigan.

Milwaukee, Wis., Oct. 16.—Forest fires have again broken out in northern Michigan. The little town of Sagoli, located north of Iron Mountain, on the St. Paul railway, was threatened with total destruction. At 10 o'clock it was reported that Sagoli was no longer in danger.

Stevenson Speaks for Bryan.

Milwaukee, Wis., Oct. 16.—Three thousand persons crowded into the Davidson theater Thursday night to hear Vice-President Adlai E. Stevenson talk for Bryan and free silver. RATES TO BE BOOSTED.

Western Roads Agree to an Advance on Freight.

Chicago, Oct. 16.—All freight rates in the entire territory west of Chicago and east of the Missouri river are to be materially advanced Nov. 2. The traffic officers of the Western roads, who have been in session in this city for the past week, reached a common point of understanding yesterday, and agreed to advance the rates on all commodities except coal to the basis in effect prior to July 1 last.

Under the agreement just reached the rate on wheat from the Missouri river to Chicago will be advanced to 19 cents and that on corn and other coarse grain to 15 cents per 100 pounds. These rates are from 5 to 6 cents under those in effect prior to July 1, but are a big advance over the present charges. The rate on wheat billed through from the territory west of the Missouri river to Chicago will be 15 cents and on corn 12 cents per 100 pounds. Rates on all other commodities, save coal, which went down during the recent war, will be advanced to the old figures.

CHEERS FOR HYZER BY MILTON VOTERS

POLITICAL SPEECH WAS WARMLY RECEIVED.

When He Ceased Speaking He Was Invited to Continue—W. G. Wheeler Also Made an Address—Other News From the College Village—Some County Gossip.

(THE GAZETTE AGENCY, W. W. CLARKE, Manager, Milton, Wis., Oct. 16, 1896.)

College Chapel was crowded to its utmost capacity Wednesday evening, by an audience that represented all classes and parties. The meeting was called to order by President Whitford, and after the college choir, under the direction of Dr. J. M. Stillman, had rendered "America," W. G. Wheeler was introduced. He took up the Chicago platform and skillfully dissected it plank by plank, showing its inconsistencies and its menace to the prosperity and good order of this nation. In closing, he made an able argument for protection. Edwin M. Hyzer followed, with one of the ablest addresses ever given here. He was frequently interrupted by hearty applause, and when he evidenced a desire to close his remarks, his hearers asked him to continue, and at the close of his effort, the enthusiasm culminated in cheering that lasted for some time. Mr. Hyzer scored unmercifully the attempt of Mr. Bryan and his followers to array class against class, touched upon the money question, and gave convincing reasons why the free coinage of silver would be productive of great evil to the nation, and in conclusion gave as a chief reason why men, no matter what their former political affiliations may have been, should support McKinley, the statement that there was nothing in the republican platform except the idea of protection, to which they could possibly object; while on the other hand, there was nothing in the Chicago platform but what was objectionable. A vote of thanks was tendered Messrs. Wheeler and Hyzer, the choir sang "McKinley and Old Glory," and the large audience dispersed feeling that they had been highly entertained and instructed.

J. B. Davis' Letter.

Mr. J. B. Davis, a business man of Kansas City, and well known to many here, says in a private letter to the writer: "May the old Gazette's shadow never grow less." "In your explorations on November 4 just keep an eye on old 'Moss-Back-Missouri,' and I think you will find tufts of Missouri moss 'lie bleeding' on her native heath, which Senator Vest will 'view' with lachrymal lamentation and 'alarm.' Should this expected event happen, later on you can see old Missouri 'pull down her Vest.' Missouri has been too long under the rule, rapine and ruin of the political 'Alvases' and the Bourbons know it. They are awakening to the real fact that God is not an anarchistic popocrat."

Free Silver Meeting A Frost.

The free silver meeting at Goodrich hall last evening was somewhat of a frost. The attendance was small, about sixty, one-third being republicans. Mr. W. H. Rogers, of Fort Atkinson was the speaker and his remarks, which could not be dignified as an argument, were upon the money question. The audience were not enthusiastic and the only applause accorded the speaker was when he related an ancient legal chestnut. He closed his remarks with an appeal to the farming and laboring classes to array themselves with Bryan against capital and its friends.

Minor Leaf Gossip.

During the past two weeks I. E. Sayre has been doing some very effective work for J. L. and M. F. Greene, buying '96.

Joseph Grundy left for St. Louis Monday and will interview the cigar manufacturers of that section during the next ten days.

J. A. Decker is loading six large cars with leaf tobacco for exports this week. The tobacco belongs to H. W. Child, of Edgerton.

Geo. H. Rumrill is still on the road for '96 and it is evident that George has purchased liberally during the past two weeks.

Charles Wheeler, the well known leaf dealer, of Madison, is in this market and is riding with A. N. Jones and is looking over the '96 crop.

Merritt Haviland, of Rudolph, Haviland & Son, left Tuesday morning for Canada, where he will talk leaf tobacco to the cigar manufacturers of that country.

The four act comedy-drama, "Railroad Jack" will begin rehearsals here next Monday, and take the road after the election. Will O. Edmunds and H. G. THEY SOLD 7,000 PAIR OF SHOES.

Remarkable Feet Accomplished in the Becker & Woodruff Clearance Sale.

Something in the way of a marvel was the sale of shoes at Becker & Woodruff's, which concluded yesterday morning. The success was due in great part to the liberal use of printers' ink. The sale was in progress about three weeks, and at the time it was inaugurated the stock consisted of about 7,000 pair of shoes, slippers, oxfords and rubbers of different sorts, the greater part of the stock being shoes. From the scarcity of good sizes, the sale was looked upon as difficult to handle. However, at the first announcement in The Gazette, people flocked to the store and from the day of opening until its close, yesterday, there was no cessation. F. S. Winslow has had oversight of the sale and to The Gazette he gives full credit for the rush with which people carried off the last five hundred pair of shoes Wednesday night and Thursday morning.

CLERGYMEN MUST PAY FULL FARE

The Railroads Are Likely to Abolish Half Fare Permits.

The question of abolishing half-fare permits for the use of clergymen is being considered by the Western Passenger association in session today at Chicago. The railroad are trying hard to get a divorce from the half-fare permit business and have been trying to dodge the issue for some years. The roads claim that the half fare for preachers was an ancient scheme entered into when clergymen were very poorly paid and when one minister traveled a great deal and looked after the spiritual welfare of various flocks scattered about the country and that now ministers are more settled and better able to pay for traveling. Last year the matter was placed in the hands of the chairman of the Western Passenger association, who issued permits good on all roads in the association, the ministers paying fifty cents each for their permits, in order to defray the expenses of the half-fare bureau. It is now proposed, however, to take the final step and abolish the entire system.

Many political speakers, clergymen, singers and others, who use the voice excessively, rely upon One Minute Cough Cure to prevent huskiness and laryngitis. Its value as a preventive is only equalled by its power to afford instantaneous relief. C. D. Stevens

CAMPAIGN NOTES.

The talk about capital coercing

labor to vote for the plain

interests of labor is the

rawest roorback ever known

in any campaign.

Trade is waiting simply for the

campaign to get out of the way.

There will be a big and booming

revival as soon as

McKinley is elected.

The best excuse for the Yale boys

is that Bryan talks so much like

a sophomore it was very easy

for them to mistake him for one

and treat him accordingly.

The man who happens to look in

the glass and finds "silver

threads among the gold" need

not necessarily conclude

that he is not level headed. It is

better to have a double standard

in one's head than to get bald

headed worrying over it.

The extravagance of Bryan's

speech is sometimes excused on

the ground that he is an earnest

and sincere zealot; but if that

be his character how is it that

he evades and dodges his record

on the tariff question whenever

Tract Medical Association convened here Thursday with a fair attendance of the members. President Louis Becker delivered his annual address and J. W. Hensley the address of welcome. C. R. Horrell, Colchester, was elected president.

ONE RAILROAD MAN FOR SILVER

William McDougal an Awful Example Of

Despotism and Coercion

Ex Alderman Smith, telegraph fore-

man for the C. & N. W., is putting in

good work against Bryan.

"I hear so much talk about

coercion," he said today, "that I

suppose I ought to be surprised when I

find a railroad man who is for silver.

Well, I am surprised, but it is because

railroad men ought to have more sense

than to support a policy that can't fail

to reduce their own wages. I went to

Chicago yesterday and met William

McDougal who used to live in Janes-

ville. He now runs a passenger train

out of Chicago, and is the rabidest

silver man you ever saw—probably

hasn't heard about being coerced for

he talks free silver all the time, on

the train and off. I got him up in a

corner yesterday and said:

"Now, Mac, you and I have been

democrats together a great many

years. Aren't you ashamed of your-

self to be chasing after a populist this

year and standing on a populist plat-

form? You always have been a democ-

rat before—be a democrat this year

and vote for Palmer & Buckner."

"He went away thinking pretty

hard, and I believe he will be all right

before November gets here. But I

couldn't help thinking as I heard him

talk free silver to a group of conduc-

tors, of how scandalously the C. & N.

W. men were being coerced."

Considerate.

Hostetter McGinnis is a male flirt. He

was taken to task by Gilhooly, who

said, reproachfully:

"You have been courting all four of

those Longcoffin girls all summer; why

don't you marry one of them?"

"I'd do it, Gilhooly, but I don't want

to do anything to forfeit the esteem of

the other three."—Texas Sifter.

Boarding-House Diplomacy.

afford to let your lodgers owe you sev-

eral weeks' rent.

Second Lady—Well, it's like this.

appetites; they never like to ask for a

second helping, so it comes cheapest in

the end.—Tit-Bits.

The Law's Majesty.

Justice—You are charged, sir, with

failing to provide for your motherless

children, who are at this moment starv-

ing in your miserable home. How much

money have you in your pockets?

Prisoner—Ten dollars.

Justice—I fine you ten dollars. Next

case.—N. Y. Weekly.

Asking Too Much.

"I demand to be recognized!"

screamed the memberess from the

Umpty-eight district.

"Impossible!" said the speakeress,

looking freezingly through her bor-

nette. "The lady is not in our set."—

Cincinnati Enquirer.

All Undergraduates.

"Well, I see the latest thing is a col-

lege for cooks."

"Is that so?"

"Surely."

"I guess all my experience up to the

present time has been with undergrad-

uates."—Chicago Post.

Her Dear Face.

"Adieu!" he whispered, and departed.

But her face was still with him.

"Adieu!" Her face was still with him,

although he literally soaked the

shoulder of his coat in benzine and

ammonia the minute he got home.—

Fusion in Georgia.

ISAAC FARNSWORTH IS SUMMONED HOME

WELL KNOWN JANEVILLE
MAN NO MORE, IS

End Came at His Home On South
Jackson Street at Nine O'clock
Last Night—Had Been Critically
Ill For Some Days—Sketch of His
Life.

Isaac Farnsworth died at his home
207 South Jackson street at 9 o'clock
last evening and by his demise Jane-
ville lost one of her best citizens and
most manly men.

Isaac Farnsworth was born in Fair-
field, Franklin county, Vermont, Au-
gust 11, 1837, and he was therefore in
his sixtieth year. He was the son of
Joseph A. and Eliza H. (Burr) Farn-
sworth. His parents were born in the
same town. The parental grandfather
of the deceased was a prominent man
of his state, a physician by profession,
and for many years judge of the cir-
cuit court. He came of an old English
family of English origin. Mr. Farn-
sworth's mother's family was of Eng-
lish Puritan descent, and the family
name is prominently identified with
the early history of the American re-
public. His parents came to Wiscon-
sin at the same time he did, and set-
tled at Lancaster, but came to Jane-
ville with him in 1864. The father
died in January, 1883, but the mother
still survives him, and resided with
the family of the late son.

Served in the Army.
When Isaac was twelve years of age
the family removed to St. Albans,
Vermont, where he was educated at
the public schools, and at Hampton
Institute, at Fairfield, that state. He
was engaged in farming until shortly
after the breaking out of the late war,
when in the fall of 1861 he enlisted as
a private of Company D, Fifth Regi-
ment, Vermont Infantry. In July,
1862, he was commissioned second
lieutenant of Company A, of the same
regiment, but was subsequently made
quartermaster sergeant and served
until the fall of 1862, when he resigned
on account of physical disability. He
returned to Vermont, and in 1864
came to Wisconsin, locating at Lan-
caster, Grant county, where he was
engaged in general merchandising,
until the fall of that year, when he
removed to Janesville. Here he
formed a partnership with R. L.
Colvin in the dry goods business under
the name of Colvin & Farnsworth.

Connected With The Gazette.
That connection continued until
1869, when he purchased his partner's
interest and continued the business
alone until 1878. In the spring of
that year, and prior to going out
of the dry goods business, Mr. Farn-
sworth bought a half interest in the
Janesville Gazette, but was not actively
engaged in the management of the
paper. He retained his ownership in
that establishment for five years. In
the fall of 1878 he accepted the po-
sition of secretary of the Harris Manu-
facturing company, continuing in that
office until the new company was
formed in 1881, when he bought an
interest in the business and was
chosen to the same position with the
Janesville Machine company, the suc-
cessor of the Harris Manufacturing
company.

Other Business Enterprises.
On July 1, 1885, he bought a half
interest in the jewelry firm of Webb &
Hall, now A. F. Hall & Co., and de-
voted a portion of his time to that busi-
ness until March 1887, when he sold
out, and has since given his time en-
tirely to the business of the Janesville
Machine Company, of which he was
the secretary and treasurer at the
time of his death. He was also treas-
urer of the Rock County Building and
Loan association.

Mr. Farnsworth was married at
Lancaster, Wis., Dec. 27, 1858, to
Miss Eliza Barnett, daughter of
Andrew Barnett, of that city. Five
children were born of their marriage,
a son and four daughters, Catherine,
wife of Frank C. Haselet; Frank B.,
Mary E., Alice D. and Josephine A.,
all of this city, who with a wife sur-
vive him.

Had Been Sick Some Time.

Mr. Farnsworth's death was not un-
expected, as he had been in poor
health for some time. A visit to the
South and to Cuba had afforded him
a pleasant vacation, although at that
time he was not really ill. Some time
after his return, however, his health
began to fail. He was taken to a
noed sanitarium in Michigan, but
while there he became much worse.
His son Frank was at once notified,
and hurried to Michigan to bring him
home. While in Chicago, enroute to
Janesville, Dr. Frank Billings, a noted
Chicago physician, was called to see
Mr. Farnsworth, but he could hold
out no hope. The sick man was at
once brought home, and everything
that skilled physicians and trained
nurses could do was done, but to no
avail, gradually his strength left him;
and when the final summons came, he
was too weak to rally.

His Death a Public Loss.

Mr. Farnsworth was a member of
the Congregational church as were
also the members of his family. Polit-
ically he was affiliated with the re-
publican party and although he did
not aspire to public office, he was al-
ways a strong supporter of the prin-
ciples of that organization.

As a business man he was careful
and conscientious and in his private
life he was all that a man could be.
For over a quarter of a century he had
been one of the Bower City's best known
and most respected residents. Men
of his stamp are not plenty and his
demise is a public loss.

WE have heard nothing but praise
thus far on the step we have taken in
adopting cash sales. It started out
yesterday, and in this short time it
works like a charm. Better by far to
save from 25 cents to \$7, by simply
paying cash for one purchase, than to
loose the amount in having it charged.

the public attractions which are of the
very highest order and still at a nom-

yet they have placed the admission fee
at 25 cents, and for children, 15 cents.

RUN CARS AS LONG AS POSSIBLE

Question of Winter Service Depends Wholly
Upon the Patronage Accorded.

The street cars will run just as long
as enough people ride to pay expenses.
During the last month, business has
been pretty slack. Whether or not
the line will be operated this winter,
depends wholly upon whether or not
people have interest enough in this
matter to ride. It costs more to run
the cars in the winter when the tracks
have to be kept clear of snow. Mr.
Blabon has written Superintendent
Cummins to keep the wheels running
as long as possible. That means all
winter if the people respond. Other-
wise it means until snow flies only.
If you want the cars to run, contribute
your nickels and save shoe leather.
That's the only way it can be done.

MICHAEL MULCAIRNS IS SET FREE.

The Charge of Burglary Made Against
Him Was Dismissed Yesterday.

Michael Mulcairns walked from the
municipal court a free man late yester-
day afternoon, the burglary charge
against him having been dismissed.
The only witness the state had was
Ole Oleson, who was convicted of the
burglary in which Mulcairns was said
to be implicated. When Sheriff Appleby
took Oleson to Waupun he told the
sheriff that Mulcairns was with him
at the time of the robbery and took a
portion of the stolen goods. It is said
that Oleson told the same story to
District Attorney Jackson and Chief of
Police Acheson when they interviewed
him at the prison.

This Time and Republicans Should
See That the List is Complete—

Stories.

Voters should bear in mind that the
second registration will take place on
Tuesday and Wednesday, October 27

tunity to register for the coming
election. At this registration it is
necessary that voters personally at-
tend and enroll themselves, where
they are not already on the lists. Re-
publicans throughout the city should
aid in ascertaining the names and
residence of republicans who may
have neglected to register before, to
see to it that the names of all such
are placed on the rolls and that such
voters visit the registration booths on
one of the last two days, October 27
and 28.

the republicans for election night. Tele-

is likely to be.

CARLISLE'S LETTER.

WHY SILVER

CIRCULATES GOLD.

Our Silver Dollars Full Primary Money for Any Amount of Debt Except When Otherwise Stipulated in the Contract.

Secretary Carlisle has written a letter to meet the query so often made of why the present silver dollar circulates at par with gold, notwithstanding its shortage in intrinsic value. He says:

"All the standard silver dollars issued from the mints since the passage of the act of 1873, now amounting to more than \$433,000,000, have been coined on public account from bullion purchased by the government, and are legal tender in payment of all debts, public and private, without regard to the amount except when otherwise expressly stipulated in the contract between the parties. They belong to the government when coined and they are paid out by the government at a parity with gold for property and service of all kinds, and received from the people at a parity with gold in the payment of all dues and demands.

"The government has made no discrimination whatever between the coins of the two metals, gold having been paid on its coin obligations when gold was demanded and silver having been paid when silver was demanded.

"Under this policy the coinage has been so limited by law and the policy of the treasury department, that the amount coined has not become so great as to drive the more valuable coin, gold, out of use, and thus destroy the basis of our monetary system; and so long as the two metals are of unequal commercial value at the ratio established by law, this limitation upon their coinage is, in my opinion, absolutely essential to the maintenance of their parity in effecting exchanges. It constitutes the principal safeguard for the protection of our currency against the depreciation which the experience of all countries has shown would otherwise result from the attempt to use two legal tender coins of the same denomination of unequal value. But if the limitation were removed, confidence in the ability of the government to preserve the equality in the exchangeable value of the coins would be destroyed and the parity would be lost long before the amount of silver coinage had become really excessive. With free and unlimited coinage of silver on account of private individuals and corporations, the government would be under no obligation to maintain the parity, and moreover, it would be unable to do so, because the volume of over-valued silver forced into circulation by a legal tender provision would soon expel gold from the country, or put such a premium upon it that it would be impossible to procure and hold in the treasury a sufficient amount to provide for the redemption of silver on presentation. In order to maintain the parity under such conditions, the government would be compelled from the beginning to exchange gold for silver dollars, and their paper representatives, wherever demanded, just as it now exchanges gold for its own notes when demanded, and as the coinage of silver dollars would be unlimited and therefore constantly increasing, a point would soon be reached where it would be impossible to continue the process of redemption.

"The implied obligation of the government to preserve the value of the money which it coins from its own bullion and for its own use, and which it forces its citizens to receive in exchange for their property and services, has been supplemented by two statutory declarations, acts of July 14, 1890, and November 1, 1893, which substantially pledge the public faith to the maintenance of that policy.

"With knowledge of these assurances, the people have received these coins and have relied confidently upon the good faith of their government and the confidence thus inspired has been a most potent factor in the maintenance of the parity. The public has been satisfied that as long as our present monetary system is preserved the government will do whatever its moral obligations and express declarations require it to do, and very largely as a consequence of this confidence in the good faith of the executive authorities the silver coins have not depreciated in value.

"It is not doubted that whatever can be lawfully done to maintain equality in the exchangeable value of the two metals will be done whenever it becomes necessary, and although silver dollars and silver certificates have not up to the present time, been received in exchange for gold, yet if the time shall ever come when the parity can not be otherwise maintained, such exchanges will be made.

"It is the duty of the secretary of the treasury and of all other public officials to execute in good faith the policy declared by congress, and whenever he shall be satisfied that the silver dollar cannot be kept equal in purchasing power with the gold dollar, except by receiving it in exchange for the gold dollar, when such exchange is demanded, it will be his duty to adopt that course.

"But if our present policy is adhered to, and the coinage is kept within reasonable limits, the means heretofore employed for the maintenance of the parity will doubtless be found sufficient in the future and our silver dollars and silver certificates will continue to circulate at par with gold, thus enabling the people to use both metals instead of only one, as would be the

case if the parity was destroyed by free coinage. Yours truly, "J. G. CARLISLE."

THAT BOGUS FORSYTHE LETTER.

(Special Correspondence.)

Chicago, Oct. 7.—A stupid and malignant forgery has been widely circulated, in the form of a letter purporting to have been written by one J. Francis Forsythe to Judge R. C. Bell of Fort Wayne, Ind. Mr. Bell is an attorney and was the chairman of the Indiana democratic state convention. He is said to be the leading silverite in northern Indiana. But who is Forsythe? Bell says that he does not know, as will be seen by the following letter from him:

"Fort Wayne, Oct. 2, 1896.

"Dear Sir: I have received a great number of inquiries, similar to yours, concerning the letter received by me, dated New York, Aug. 19, 1896, and signed J. Francis Forsythe. The letter was received by me in the course of mail, bearing the New York postmark. It was written with typewriter and bore the usual marks of an ordinary business letter, was signed with pen, and numerous interlineations and corrections were also made with pen. I do not know why it was sent me, and I have no recollection of ever having met the author personally. I never answered the letter, but did what I considered to be my duty, viz., gave it to the press for publication and gave it such other publicity as I could. That is absolutely all I know about the letter or its source, and you must draw your own conclusions. Yours truly,

"R. C. BELL."

The Forsythe letter was copied by many free silver papers, notably by the Omaha World-Herald, which has since said of it (Sept. 24, 1896): "We are now convinced that the alleged letter is a fake. Mr. Bell no doubt received it and believed in its genuineness, but we are unable to find any trace of the alleged banker in Wall Street, and we conclude, therefore, that Mr. Bell was imposed on. We have abstained from editorial reference to the letter until it could be looked up. It may have been, as some think, a practical joke played on Mr. Bell by a gold-bug friend, or it may have been a more serious imposition. Whatever it is, it is not what it purports to be."

The original publication by Mr. Bell was in the Fort Wayne Journal, and the letter was dated from 711 Wall street. There is no such number. The highest number in Wall street is 120. No. 711 would be in the East river. Since this fact has been pointed out, in all the later reproductions of the forgery, No. 11 has been substituted for No. 711. The number will now probably be changed again.

The pretended Mr. Forsythe, whose name is not in the New York city directory, claimed in his letter to be a member of "the Committee of Political Education of Wall Street." There is no such committee.

Inquiries by mail and by telegraph have poured in upon the republican national headquarters, both in New York and in this city, asking for authentic information on the subject. Word has been received here from New York that 11 Wall street is the Mortimer building, where there is no such person, in any of the offices, as J. Francis Forsythe, and that diligent search among the bankers and brokers of New York has failed to reveal the existence of any one who knows or has ever heard of any man bearing that name. The various firms who occupy rooms in the Mortimer building as tenants have received so many letters of inquiry respecting him that they are unable to answer them; and the mail addressed to Forsythe himself is refused by the janitor. There are four barrels of letters addressed to him now in the New York postoffice, which have not been called for, and will have to be destroyed.

A wit has said that a lie is always better than the truth, because a lie can be amended, denied, confessed, another lie substituted for it, or you can tell it again; but when one has given utterance to the truth, it is past recall. This seems to be the principle on which some politicians are conducting their side of the present political campaign. Other illustrations of its application are found in the spurious quotations from the London Financial Review, and from the writings of Abraham Lincoln. As the old almanacs used to say, in the dog days, "Look out for hot weather about this time," so now the public may be warned to expect a flood of similar frauds during the next four weeks.

Watson a Possible X President.

The number of votes in the electoral college is 443; necessary to a choice, 222. The number of Watson electors nominated on fusion electoral tickets, in various states, is about 40. Now let us suppose that Mr. Bryan should receive the votes of states electing a bare majority of the electors, say 222; and that this should include the 40 Watson electors, more or less, nominated in states where fusion has been accomplished. There would then be 182 Sewall electors. Now what can be more probable than that, in that event, the 40 Watson electors, holding the balance of power, will say to the Sewall electors, "If you will give us Watson we will let you have Bryan; but no Watson, no Bryan." What would be the result? The Sewall electors would be forced to accede to this offer or threat, and Watson would become the Vice-President of the United States. Then, in case of Bryan's death, he would become the President. This is the contingency which Northern Democrats who vote for Bryan and Sewall have to face.

Glass Factories to Resume.

Pittsburg, Oct. 16.—The prescription glassware manufacturers of the United States and a committee of the American Flint Glass Workers' association, who have been in conference here for the last two days to settle the wage scale for the coming season; last night came to an agreement by which work will be resumed at last year's scale. By the settlement the workers do not get the advance they asked, but consider they won a victory, inasmuch as the manufacturers failed to secure the further reduction demanded. It is expected that the factories throughout the country will at once resume operations, giving about 8,000 skilled workers employment.

Urges Immediate Arbitration.

London, Oct. 16.—Sir Edward Clarke, Q. C., conservative member of parliament for Plymouth, and who was solicitor general in Lord Salisbury's previous ministry, in speaking at York expressed great anxiety over the outcome of the Venezuelan dispute in view of the approach of the presidential election. He said the decision of the American boundary commission would be against England and urged immediate arbitration.

Strength of the National Grange.

Manchester, Iowa, Oct. 16.—J. H. Brigham of Delta, O., president of the National Grange, presided at the closing meeting of the state grange Thursday. The order is the strongest in the eastern states.

Why is one woman attractive and another not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the strictly feminine organism. Sold by druggists.

"Yes. They have exchanged bowie knives." — Detroit Free Press.

Business Is Business.
 Two passengers on a western train became involved in a political controversy, which waxed so hot that one of them called the other a liar.

"What's that? A liar?" and he was on his feet in an instant.

"Yes, a liar," was the emphatic response, "or my name ain't John Smith, of Smithville."

"What! The hardware merchant?"

"The same."

Willful Woman.
 After the old gentleman had invited the young one to be seated the latter coughed once or twice to clear his throat and then bluntly suggested that he wished to marry the old gentleman's daughter.

The old gentleman didn't wish to be too ready to give his consent, but he admitted after a few minutes of thought that he had no objections.

"That's just the trouble," protested the young man, disconsolately. "If you'd only oppose it and order me out of the house once or twice and buy a bulldog I'd have some show of getting her." — Chicago Post.

His Real Need.

 "I'm putting up a prescription for your wife's milliner," said the drug clerk to his employer. "What shall I charge her?"

"What is the usual price for what she is getting?"

"Fifty cents."

"Charge her \$2.75." — Texas Sifter.

Not the Right Man.

Chronic constipation is a painful, disagreeable and life-shortening difficulty. It deranges the system, causes sick headache, bad breath, and poisons the blood. It can be readily overcome by DeWitt's Little Early Risers. These little pills are great regulators. C. D. Stevens.

ONE DISEASE AND ONE REMEDY
 "The art of painting," said Millais, "consists in selecting the right colors and putting them in the right place."

"The way to win a battle," said Napoleon, "is to mass your troops at the critical moment against the weakest spot in the enemy's line."

"The way to cure many ailments," said the great Dr. Abercrombie, "is to purify the poisoned spring in which they arise, generally the torpid and inflamed digestive system."

Thus wisdom and experience simplify and condense. Thus the Shakers of Mount Lebanon reasoned when they sought, and finally found, a remedy for indigestion and dyspepsia. Where one person has something else, they argued, a thousand have this. To cure this plague will almost rid the world of sickness. Why should we vex ourselves with confusing definitions? A good digestion is life and health; a bad one is disease and death. Hence, from the healing and stimulating mountain herbs, they extracted the Shaker Digestive Cordial, the rarest and most effective of medicines for one disease, and one only—indigestion and dyspepsia.

Do you suffer from any of these miserable feelings?—depression of spirits, heaviness and pain in the stomach after meals, bad taste in the mouth, wind in the bowels, irritable disposition, nervous weakness and alarm, worry and weariness, costiveness or irregularity of the bowels, nausea, palpitation, sick headache, heartburn, loss of appetite and sleep, dry skin, etc.—?

Don't indulge in fifty foolish fancies. You have indigestion and dyspepsia and nothing else. Set the disordered stomach right with the one medicine which will surely do it, Shaker Digestive Cordial, and these symptoms will vanish with their cause. A good effect will follow the first doses. Even chronic cases soon yield.

Test the cordial, at practically no cost, by taking a ten-cent trial bottle. For sale by nearly all druggists.
